HERBRAND BRACE RIM WRENCH

Made from forged steel with revolving cap handle. Four sizes to fit all standard rim nuts.

The convenient tool for tire changes. Works faster. Nicely balanced—powerful leverage.

Herbrand Brace Rim Wrench
This table shows the size which fits different makes of automobiles

1010- $\frac{5}{8}$ in.	1011- $\frac{11}{16}$ in.	1012- $\frac{3}{4}$ in.	1014- $\frac{7}{8}$ in.

Herb says this wrench sells itself when displayed on the board shown at the right. A card on the back of each board, with the table shown above, tells your customers which wrench they need. A real profit maker for the dealer, and a convenience to the buyer. *A wrench on display is worth two on the shelf.*
